Responsive to the Office Action mailed August 8, 2002 in the above-identified patent application, Applicants respectfully provide the following remarks, which are believed to be fully responsive to the Office Action, and are further believed to place the claims in condition for allowance.

REMARKS

Election of Species

Claims 10-38 are pending in the present application. In the Response to Restriction Requirement filed on May 9, 2002, Applicants elected to prosecute the invention of Group II (Claim 10), entered new claims 11-38, and further elected the species of Claim 17. It is the Examiner's position that this election was not fully responsive because the compound of Claim 17 is not a single species.

Certificate of Mailing under 37 C.F.R. § 1.8

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner for Patents, Washington, DC 20231, on September 4, 2002.
